KERALA FOREST STATISTICS 2021-22

Kerala Forest Department
Government of Kerala

KERALA FOREST DEPARTMENT

FOREST STATISTICS

2021-22

PREFACE

Forests in the State of Kerala are incredibly diverse and play a vital role in maintaining ecological balance. Kerala has a wide range of forest types with rich biodiversity and high degree of endemism. Western Ghats, one of the biodiversity hotspots that accounts for the biodiverse wilderness is running all along the eastern boundary of Kerala. Increasing population, change in land use pattern and changing lifestyles of the people are considered some among the factors that exert great pressure on forests. The greatest challenge faced by present day foresters is to strike a balance between developmental needs and conservation.

'Forest Statistics 2021-22' is one such effort by the Statistics Wing of the department, headed by the Deputy Director (Statistics), by collating and providing vital statistical data much needed by the policy makers to formulate future policies. As we delve into the statistics and analysis presented here, we gain a deeper understanding of Kerala's rich natural heritage.

Let this report serve as a guiding light for policy makers, researchers and nature enthusiasts alike as we continue our journey towards sustainable forest management.

Ganga Singh IFS

Principal Chief Conservator of Forests & Head of Forest Force

- No. of Vana Samrakshana Samithies (VSS) **427**
- No. of Eco Development Committies (EDC) **213**

Chapter – I

NATURAL RESOURCE MANAGEMENT

1.1 Introduction

Kerala, nestled in the Western Ghats of India, has a wealth of diverse flora. Its forests, part of the Western Ghats biodiversity hotspot, are home to around 4,000 species of flowering plants, including many endemic and rare varieties. These forests are classified into tropical wet evergreen, moist deciduous, dry deciduous and montane shola-grassland ecosystems, each supporting a unique mix of plant life. Notable species include the Malabar rosewood, Lion-tailed macaque tree, and a variety of orchids, ferns, and mosses. These forests also host economically important plants like teak, rubber, and spices such as pepper, cardamom, and cinnamon, making them vital for biodiversity conservation and sustainable resource management. The forests of Kerala and the Western Ghats play a crucial role in maintaining ecological balance, providing essential ecosystem services like carbon sequestration, water regulation, and habitat for diverse wildlife. Preserving these forests is imperative for safeguarding the rich floral diversity of the region and ensuring the well-being of its ecosystems and inhabitants.

1.2 Flora

Floristic diversity of Kerala

Kerala boasts of rich floral diversity, with around 5,000 flowering plant species belonging to around 1,500 genera and 220 families. The dominant families include Leguminosae, Poaceae, and Orchidaceae. Among the genera, Impatiens, Crotalaria, and Cyperus are prominent. Additionally, around 1,700 species are endemic to peninsular India. Kerala also has around 855 tree species, with many showing high endemism. Among exotic species, some like Chromolaena odorata and Lantana camara are invasive, while others like Ipomoea mauritiana and Vitex negundo have medicinal value. Idukki district is considered the most species-rich, with 3,336 taxa, despite lacking sea coasts and backwaters. Alappuzha district has the largest number of aquatic species, dominated by grasses. The lowest number of flowering plants was recorded from Kasargod. District-wise number of flowering species is shown below.

Table-1.1
District wise number of flowering species

District	Number of Species

Natural forests

Kerala's natural forests are diverse and lush, comprising tropical wet evergreen, moist deciduous and dry deciduous ecosystems. These forests are home to a plethora of plant and animal species. The forests play a vital role in maintaining ecological balance, providing habitat for wildlife, regulating water flow, and contributing to the overall well-being of the region. Efforts to conserve and sustainably manage these forests are essential for preserving Kerala's rich biodiversity and ensuring a healthy environment for future generations.

Forest area

Kerala's forest area covers approximately 30% of the state's geographical area. These forests consist of tropical wet evergreen, moist deciduous and dry deciduous forests among others.

Total forest area of the State - 11531.139 km²

Forest area as per legal status

The forest area under the administrative charge of the department is 11531.139 km² at the close of the year 2021-22 and forms 29.67% of the total geographical area of Kerala State (38863 km²). During 2021-22, 6.226 km² of forest area increased from the previous year. An area of 7.38 km² has been increased under reserve and proposed reserve forests, 0.996 km² forest area has been increased under ecologically fragile land and an area of 2.15 km² has been restored undervested forest.

Total Forest Area in the State 11531.139 (km²)

Vested Forests

Any Private Forests, where the ownership and possession of such forest is vested with the Government under Section 3 of the Kerala Private Forest (Vesting & Assignment) Act, 1971 and such forests are deemed Reserved Forests as per Section 4 of the Act. An area of 2.15 km^2 has been restored under Vested Forests during 2021-22.

Plantations

The Kerala Forest Department manages several plantations across the state, primarily focusing on teak and other commercially valuable species. These plantations serve as a sustainable source of timber and other forest products, contributing significantly to the department's revenue. The department employs modern forestry techniques to ensure the productivity and ecological sustainability of these plantations.

New Plantations raised during 2021-22

The Kerala Forest Department generates a significant portion of its non-tax revenue from timber sales. The department is actively engaged in establishing new plantations to boost future income. The details of plantations raised during the year 2021-22 is listed in the table below

Plantations under Kerala Forest Development Corporation (KFDC)

The Kerala Forest Development Corporation (KFDC) established on January 24, 1975, is a state-owned public sector undertaking. It was created as a result of the recommendations of the National Agricultural Commission's 1972 report. The KFDC's primary objective is to mobilize institutional finance for large-scale forest plantations covering over 80,000 hectares. These plantations aim to facilitate the development of wood-based industries in the state.

Statewise Forest Cover

Based on the ISFR published by Forest Survey of India 2021, the forest cover in Kerala spans 21,253 km^2, which accounts for 54.70% of the state's geographical area. This marks a 0.52% increase from the previous assessment. Kerala is home to 1,944 km^2 of very dense forest, 9,472 km^2 of moderately dense forest, and 9,837 km^2 of open forest. The state's forest cover has increased by 109.20 km^2 compared to the ISFR 2019 report.

Following the assessments in 2019 and 2021, there has been an increase of 1,540 km^2 in forest cover at the national level. The top three states showing growth are Andhra Pradesh (647 km^2), Telangana (632 km^2), and Odisha (537 km^2). The total forest cover of India, as per the India State of Forest Report 2021, is 7,13,789 km^2, accounting for 21.71 percent of the country's total geographical area (32,87,469 km^2). Very Dense Forest, Moderately Dense Forest, Open Forest, and Scrub Forest cover make up 3.04%, 9.33%, 9.34%, and 1.42% respectively.

District-wise Forest Cover

When comparing the district-wise forest cover in Kerala, Idukki leads with the largest area (3,155 km²), followed by Palakkad (2,104 km²), Malappuram (1,984 km²), Pathanamthitta (1,949 km²), and Kannur (1,669 km²). In terms of the percentage of forest cover relative to the total geographical area, Wayanad has the highest forest cover at 74.2%, followed by Pathanamthitta (73.49%), Idukki (72.44%), Kozhikode (61.74%), and Thiruvananthapuram (60.17%).

In Kerala there are 10 Hill Districts identified by Planning Commission of India, these are marked by superscript (` H') in table 1.23 and 9 Tribal Hill Districts identified by Government of India under the Integrated Tribal programme. These are marked with superscript ('TH ') in table 1.23.

1.3 Fauna

Kerala's forests are home to diverse wildlife, including elephants, tigers, leopards and a variety of bird species. The state has several protected areas, including wildlife sanctuaries and national parks that play a crucial role in conserving this biodiversity. Wildlife enumeration in Kerala forests is conducted periodically to assess population trends and monitor the health of various species. These efforts help in formulating conservation strategies and ensuring the long-term survival of the state's wildlife.

Protected Areas

At present there are 11 Wildlife divisions under the Forest Department. Kerala has 3441.207 km^2 of forests under protected area which include 6 National Parks, 18 Wildlife Sanctuaries (includes 2 Tiger Reserves, 3 Bird Sanctuaries) and one Community Reserve which forms 29.84% of the total forest area.

Elephant Corridors

Wildlife habitats and their corridors is one of the major long term steps to tackle human wildlife conflict. Elephants in the wild show a nomadic behaviour and a daily/seasonal migration. Ranges are immensely important to the environment. Kerala Forest Department has been taking several steps to ensure that the habitats of elephants are protected. Fragmentation of forests is a major challenge as far as protecting wildlife corridors is concerned. As per the second edition of 'Right of Passage (Elephant Corridors of India)' published in 2017, four corridors were identified in Kerala.

Table-1.33
List of elephant corridors

Sl. No.	Name of the Corridor	Division under which the corridor falls	Corridor		Status of Notification	Remarks
			Length in (km)	Width in (km)		
1	Kottiyoor - Periya	Kannur – Wayanad (N)	3	0.1	Not Notified	Land acquisition in progress
2	Periya at Pakranthalam	Wayanad (N)	0.5	0.2	Not Notified	Land to be acquired
3	Thirunelli - Kudrakote	Wayanad (N)	6	1 – 1.5	Yes	Land acquired
4	Nilambur – Kovilakom – New Amarambalam	Nilambur (N) & (S) Divisions	1	0.5	Not Notified	Land acquired

Elephant Population Estimation

In Kerala, the All India Synchronized Elephant Population Estimation was conducted in 2017 with active participation from the Periyar and Parambikulam Tiger Foundation and the Kerala Forest Research Institute. The estimated elephant population in Kerala for 2017 is 5706, pending approval from the MoEF & CC. The elephant density was estimated to be 0.59 elephants per square kilometer.

The estimated number of elephants from dung count method, during 2017, along with the estimated elephant populations during previous estimation is given below.

Table-1.34

Number of elephants from dung count method

Elephant Reserve	2005		2007		2010		2012		2017

*Sex-ratio (Male to female in adult population)

Tiger Population Estimation

Monitoring of tigers, co-predators, their prey and habitats was carried out in the forests of Kerala as part of the All-India tiger estimation, as per the guidelines issued by National Tiger Conservation Authority (NTCA) from 16th to 23rd December 2013 and the new census is also in progress. The status report of tigers in India published by the Ministry of Environment, Forest and Climate Change (MoEF&CC) shows that the population of tigers in Kerala has increased to 213 from the population of 190 in 2018. While the estimated tiger population shows an increasing trend, this does not necessarily mean that the actual number of tigers has risen during the specified period. The use of improved sampling methods including more sampling units, a larger deployment of camera traps and modern scientific analysis, has revealed a higher count of individual animals, which even otherwise would have been there during the previous sampling years. A comparison of the population of tigers as per the past estimations is given in below.

Table-1.35

Tiger population estimation for the last 6 years

Year	2002	2006	2010	2014	2018	2022
Number	71	46	71	136	190	213 (SE 16)

Nilgiri Tahr Population Estimation

The Nilgiri Tahr is an endemic species showing restricted distribution in the mountain landscapes of Southern Western Ghats in the states of Kerala and Tamilnadu. Low population status, discontinuous distribution and human intervention in a highly fragile ecosystem brought Nilgiri Tahr in the IUCN red data book under the status 'Endangered'. It is also listed in the Schedule I of Wildlife (Protection) Act 1972.

The estimated population figures of Nilgiri Tahr in Eravikulam National Park during last 11 years are given below.

Table-1.36

Nilgiri Tahr population estimation in EVNP (2012 to 2022)

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Population	789	873	894	900	664	575	643	526	723	782	785

The estimated population figures of Nilgiri Tahr in Parambikulam Tiger Reserve and Silent Valley National Park in 2020 are given below.

Table-1.37

Species-wise Population Estimation of other animals

A general wildlife enumeration was conducted from May 18th to 20th, 2011, in collaboration with the Kerala Forest Research Institute (KFRI) in Peechi, Thrissur. The previous general wildlife enumerations were conducted in 2002, 1997, and 1993.

Captive Elephants

The provisions of the Wildlife (Protection) Act, 1972, and the Kerala Captive Elephant (Management & Maintenance) Rules, 2012, are strictly implemented in the state to regulate the management of captive elephants. To ensure the welfare of captive elephants, state-level task forces, and district-level task forces on captive elephants have been constituted as per G.O (Ms) No.03/2015/F&WLD dated 17.01.2015.

The Kerala Forest Department has undertaken training programs for 430 owners and 2842 mahouts to enhance their skills in captive elephant management. Currently, there are 447 captive elephants in the state, with 414 privately-owned and 33 owned by the department. During the year, 26 deaths of captive elephants were reported in the state.

1.4 Special Habitats

Mangroves

Kerala's mangroves, located along the coastal regions, backwaters and estuaries are crucial ecosystems supporting diverse plant and animal life. These forests provide coastal protection, serving as a buffer against erosion and storm surges and act as important carbon sinks, helping to mitigate climate change. Conservation efforts are underway to protect and restore Kerala's mangrove ecosystems due to their ecological significance.

Consolidated information about the total cover and number of patches of mangroves in the various districts of the state is furnished hereunder.

Table-1.42

Sacred groves

Sacred groves in Kerala are unique ecological sites protected by local communities because of their religious and cultural significance. These groves serve as repositories of rare plant and animal species, preserving biodiversity. Conservation efforts are focused on maintaining the sacred status of these groves to ensure their protection and ecological integrity.

Consolidated information about the number of sacred groves and extent of wooded area spread over in the various districts of the state is furnished hereunder

Table-1.43

Myristica Swamp Area

Myristica Swamps are a type of fresh water swamp forests predominantly composed of species of Myristica (a genus of trees in the family Myristicaceae). They are characterised by the presence of aerial roots (knee roots and stilt roots) and require special abiotic conditions for development and to sustain itself. This type of forest is found only in two localities in India (i) Uttara Kannada, district of Karnataka state and (ii) Southern parts of Kerala State. In Kerala, this forest type is found predominantly in Kulathupuzha range and its bordering Shenduruney wildlife sanctuary and Anchal range of the Punalur forest division.

1.5 Forest Produce

Major Forest Produce

Major forest produce in Kerala includes timber, bamboo, and medicinal plants, which are vital for the state's economy and livelihoods. Timber is a primary material for construction, furniture making, and paper production, supporting various industries. Bamboo is utilized for construction purposes and in crafting traditional handicrafts, contributing to local artistry and economy. Additionally, Kerala's rich biodiversity fosters the growth of numerous medicinal plants, crucial for traditional medicine and the pharmaceutical industry. The sustainable management of these resources is essential to ensure their continued availability and to maintain the ecological balance of Kerala's forests.

Table-1.45

Non-Wood Forest Produce (NWFP)

Kerala is known for its diverse Non-Wood Forest Produce (NWFP), such as medicinal plants, spices, fibre and honey, which are crucial for local livelihoods and contribute significantly to the state's economy. Total quantity of Non-Wood Forest Produce procured by Kerala State Federation of SC/ST Development Co-operatives Ltd from tribal co-operative societies and the value fixed are given below.

Table-1.51

Procurement of non-timber forest produce

Sl. No.	Name	Quantity (kg)
1	Medicinal plants	328090.04
2	Spices	23775.800
3	Fibre	12867.000
4	Grass other than fodder	37833.000
5	Honey	13326.300

Chapter - II

FOREST MANAGEMENT

Forest protection is a critical aspect of sustainable forest management, aimed at conserving and preserving forest ecosystems. It involves various measures to prevent deforestation, illegal logging, wildlife poaching, and forest degradation. Forest protection is essential for maintaining ecological balance, mitigating climate change, and ensuring the well-being of both forest-dependent communities and the planet as a whole.The Department conducts regular patrols and employs fire watchers to detect and suppress fires early. Additionally, fire lines are maintained, and advanced burnings are sometimes used to reduce fuel loads. Awareness programs are also conducted to educate the public about the importance of preventing forest fires.

2.1. Working Plans

The forests of Kerala are managed according to detailed working plans that outline strategies for sustainable forest management. These plans, formulated as per National Working Plan Code, include measures for conservation, regeneration, and utilization of forest resources. The working plans ensure that the forests are managed in an ecologically sound manner while meeting the needs of local communities and industries.

Table-2.1

2.2 Boundary demarcation & details of encroachment

Demarcation of forest boundaries

Total length of forest boundary is 16845.81 km; out of this 11554.74 km requires demarcation, and the remaining 5291.07 km is covered by natural boundary. Progress of boundary demarcation is shown below.

Table-2.2

2.4 Forest Fire Prevention

Forest Fire Prevention Measures

Forest fire protection measures primarily involved the formation / maintenance of fire lines and the deployment of fire protection watchers. In 2021-22, a total of 2768.518 kilometers of fire lines were created / maintained, with 147,600 fire watchers engaged (man days). An expenditure of Rs 2028.583 lakh was incurred for these activities.

Chapter III

HUMAN-WILDLIFE CONFLICT MANAGEMENT

Human-wildlife conflict is a cause of concern in Kerala, particularly in areas bordering forests and wildlife habitats. Encounters between humans and animals like elephants, leopards, and wild pigs often result in property damage and occasionally lead to human casualties. The state government and Forest Department are implementing various measures to mitigate human-wildlife conflict.

3.1 Human-Wildlife Conflict incidents

A total of 7966 Human-Wildlife Conflict incidents was reported in Kerala during 2021-22.

Table-3.1

Wild Animals Rescued

During 2021-22, several cases of human-wildlife conflict were identified and addressed in a scientific manner. Wild animals found in human habitations were rescued as per protocols and released back into their natural habitat.

Table-3.3
Details of wild animals rescued

Sl. No.	Name of Animals	Number
1	Peacock	323
2	Eagle	136

Jana Jagratha Samithi (JJS)

Throughout Kerala, 261 Jana Jagratha Samithi (JJS) units have been established to act as Primary Response Teams for the management of human-wildlife conflict. These committees are also responsible for raising awareness about conflict mitigation between humans and animals.The details of the Jana Jagratha Samithi are as follows.

3.3 Wild Animal Mortality

The capture of wild animals, when they transgress into human settlements and becomes dangerous to human lives and property, is managed under the Wildlife (Protection) Act, 1972. The act allows for the capture and translocation of such wild animals which become dangerous to human lives and property as per provisions of Section 11 of the Act.

Wildlife mortality, caused by natural factors like predation and disease, as well as human interference such as habitat destruction and poaching, is a global concern. In Kerala, which is rich in biodiversity but densely populated, animals like elephants, tigers, and deer face threats from habitat loss, human-wildlife conflict, and illegal activities. The Kerala Forest Department and conservation organizations work to mitigate these threats through habitat protection, conservation programs, and public awareness campaigns.

Efforts to reduce wildlife mortality in Kerala include establishing rescue centers, implementing conservation measures in wildlife corridors, and enforcing wildlife protection laws. Despite these

efforts, wildlife mortality remains a challenge, underscoring the need for sustained conservation efforts and sustainable practices to protect Kerala's diverse wildlife. The details of wildlife mortality during the year is 290 as tabulated below.

Table-3.9

The Government of Kerala has issued orders for the killing of wild pig vide GO (Rt) 05/2021/F&WLD dated 11/01/2021. Further it was modified by banning killing of wild pigs using snares within 2km from forest boundary vide GO (Rt) 25/2021/F&WLD dated 28/01/2021. Based on this, 2158 wild pigs were killed during the year.

Chapter - IV

PFM AND ECOTOURISM

4.1. Participatory Forest Management (PFM)

Kerala has embraced participatory forest management as a key strategy for biodiversity conservation and improving the livelihoods of forest-dependent communities. Since 1998, the state has established partnership institutions at the grassroots level, known as Vana Samrakshana Samithies (VSS) in territorial forest divisions and Eco-Development Committees (EDC) in sanctuaries and national parks. In 2021-22, there were 427 VSSs and 213 EDCs actively involved in managing and conserving forest resources.

Table-4.1

Grama Haritha Samithy (GHS)

This initiative establishes a ward-level association comprising residents interested in afforestation and nature conservation. Each ward will have only one such association. The Ex-officio Secretary (Section Forest Officer/Beat Forest Officer) will explain the program, and residents interested in joining afforestation and environmental conservation efforts will form an association called the Grama Haritha Samithy (GHS) with a clearly-defined Memorandum of Association (MOA). Each GHS will nominate four representatives (two men and two women) to represent the GHS in the Panchayat Haritha Samithy (PHS). The GHS will be affiliated with the PHS under the MOA, and the PHS will assign an affiliation number to the GHS. The GHS will collaborate with ward residents to develop micro-plans for afforestation and environmental conservation in the ward and adjacent natural habitats, with the nominated representatives providing leadership for these activities. During 2021-22 two numbers of Grama Haritha Samithies were established.

4.2. Ecotourism

Ecotourism Destinations in Kerala

Ecotourism in Kerala's forest areas is managed by forest development agencies, offering visitors a chance to experience the state's rich natural resources. With 60 ecotourism destinations operational, nature enthusiasts can explore diverse ecosystems while contributing to conservation efforts. These initiatives promote sustainable tourism practices, benefiting local communities and the environment alike.

Vanasree Eco-shops

Vanasree ecoshops were established in 2011-12 at various locations to enable the Vana Samrakshana Samithi to sell processed and semi-processed non-timber forest products collected by the tribal people from forest areas. The profits from these outlets are reinvested into the Vana Samrakshana Samithies (VSS), benefiting the MFP collectors. The public also has access to authentic and unadulterated forest products through these outlets. Currently, there are 67 Vanasree ecoshops in Kerala under Forest Development Agencies (FDAs), including 2 mobile units.

Tribal Co-operative Societies

Tribal co-operative societies play a crucial role in the collection of non-timber forest produce (NTFP) in Kerala forests. These societies, formed by tribal communities, facilitate the sustainable harvesting and marketing of NTFPs, ensuring fair prices and equitable benefits. Through their involvement, tribal co-operative societies contribute to the conservation of forest resources while enhancing the livelihoods of tribal communities.

Chapter - V

HUMAN RESOURCES

The Kerala Forest Department boasts a dedicated workforce comprising forest officers and other staff members. They are trained in forest management, wildlife conservation, eco-tourism and other allied sectors. Their expertise and commitment play a pivotal role in the conservation and sustainable management of Kerala's forest resources.

(Organizational chart attached as Annexure)

5.2. Training Details

Staff members of the Kerala Forest Department undergo regular training programs to enhance their skills in forest management, wildlife conservation, community engagement and the like. These training sessions ensure that the department's personnel are equipped to effectively manage and protect the state's diverse forest ecosystems.

In 2021-22, a total of 602 officials from various cadres participated in different training programs. Additionally, the Human Resource Development (HRD) wing conducted 17 technical webinars, specifically tailored for field officers and staff of the Kerala Forest Department, covering relevant topics.

Chapter – VI
INFRASTRUCTURE

The Kerala Forest Department is equipped with a comprehensive infrastructure to support its conservation and management initiatives, though this need to be constantly upgraded. This includes a network of buildings for administrative and residential purposes, roads for access to forest areas and a fleet of vehicles for patrolling and transportation needs. Additionally, the department is equipped with arms and ammunition to ensure the protection of wildlife and forests, enabling effective enforcement of conservation laws.

6.1 Forest Stations

The Forest Station system, implemented by the department in 1988, was designed on the model of Police Stations. This shift from the beat section system aimed to improve forest protection by offering greater collective strength and security to the forest protective staff. Details of Forest Stations are given below. The number of forest stations and check posts as on 31.03.2022 is 125 and 62 respectively.

Chapter – VII

ACTIVITIES OUTSIDE FORESTS

7.1. Wood Based Industries

The Kerala Forest (Regulation of Sawmills and Other Wood-based Industrial Units) Rules, 2021, which came into effect through Government Order (P).No.02/2021/F&WLD Dated.12.02.2021, established a State Level Committee chaired by the Principal Chief Conservator of Forests and Head of Forests. The committee oversees the granting of licenses, with Territorial Divisional Forest Officers designated as Authorized Officers and Territorial Circle Chief Forest Conservators as Appellate Authorities for field-level monitoring. These rules allow wood-based industrial units operating before 30-10-2002 to apply for licenses within six months of the rule's commencement. The State Level Committee has instructed Authorized Officers to scrutinize applications within the prescribed time frame and take necessary action in accordance with the rules.

During 2021-22, the State Level Committee convened meetings on 16.09.2021, 15.03.2021, and 31.03.2021. The meeting held on 16.09.2021 granted in-principle approval for granting licenses to new wood-based industrial units in categories II, V, VII, VIII, IX, and X. The committee directed Authorized Officers to proceed with issuing licenses in accordance with the rules. Additionally, the State Level Committee meeting on 31.03.2022 scrutinized applications and granted in-principle approval for 52 eligible applicants for transfer of ownership and 16 applicants for inter-district transfer of sawmills and other wood-based industries.

During the financial year 2021-22, Rs.80 lakh was collected as One-Time-Payment for granting licence for saw mills and other Wood Based Industries.

7.2. Forestry Clubs

Establishing Forestry clubs in educational institutions is a key initiative of the Social Forestry wing of the Forest Department. These clubs aim to raise awareness among students about the significance of forest conservation, foster a connection with nature, and cultivate environmentally-conscious citizens for the future. Forestry clubs also contribute significantly to forestry activities, such as distributing seedlings, organizing nature conservation awareness programs, conducting workshops and nature study camps, and leading campaigns against forest fires and illegal felling.

Currently, there are 1131 registered forestry clubs across the state, but the majority of them are inactive. The department has developed a comprehensive action plan to revive and revamp these forestry clubs in collaboration with the education department and government. In the financial year 2021-22, a total of 50 new Forestry Clubs were established.

7.3. Incentivisation of Private Forestry

The government had approved a proposal to provide cash incentives to farmers, aiming to encourage them to cultivate more trees and produce timber on their private lands, as per G.O (Rt) No. 99/2012/F&WLD dated 17.02.2012. The tree species covered by this scheme include Teak, Sandal, Mahogany, Anjily, Plavu, Rosewood, Kambakam, Kumbil, Kunnivaka, and Thembavu. The scheme is intended to be implemented through individual farmers, VSS, EDC, Kudumbasree units, Self Help Groups, farmers' co-operatives, and NGOs. Eligibility for the incentive requires

planting a minimum of 50 seedlings on their land. The proposed incentive amounts are as follows:

(a)	From 50-200 plants	:	Rs. 50 per plant
(b)	From 200-400	:	Rs. 40 per plant with a minimum of Rs. 10000/-
(c)	401 to 625	:	Rs. 30 per plant with a minimum of Rs.16000/-

7.4. Haritha Keralam Project

In 2021-22, the Social Forestry Wing raised 46.62 lakh valuable seedlings under Haritha Keralam Project Phase XIII for distribution and planting as part of World Environment Day and Vanamaholsavam celebrations. Planting will be carried out in tribal colonies, VSS and EDC areas, public lands, institutional lands, and degraded lands as part of eco-restoration efforts.

Table-7.1
District-wise number of seedlings raised

Sl. No.	Name of District	No. of seedlings raised (in lakhs)	No. of seedlings distributed (in lakhs)
1	Thiruvananthapuram	4.15	4.11
2	Kollam	3.00	2.94
3	Pathanamthitta	3.22	2.91
4	Alappuzha	3.67	3.67

6	Ernakulam	4.00	3.96
7	Idukki	2.35	2.22
8	Thrissur	4.00	3.92
9	Palakkad	4.40	4.27
10	Malappuram	3.12	3.12
11	Wayanad	2.66	2.59
12	Kozhikkode	2.32	2.29
13	Kannur	2.50	2.50
14	Kasargod	3.45	3.32
Total		**46.62**	**45.04**

Note: 1.58 lakhs seedlings were used for other departmental planting programmes and casuality replacement.

7.5. Protection and Conservation of Sacred Groves

The scheme is implemented by the Social Forestry wing in accordance with the guidelines issued by the Government through G.O (Rt) no. 485/16/F&WLD dated 24.12.2016. The Assistant Conservator

of Forests (Social Forestry) in each district shortlists 5 applicants, who are then reviewed by a State Level Expert Committee. This committee evaluates and prioritizes applicants for financial support. Upon producing relevant ownership documents, an agreement is signed between the owner/trust of the sacred groves and the concerned Assistant Conservator of Forests. The first installment, amounting to 10% of the total project cost or a maximum of Rs. 25000/-, is released. Subsequent installments are disbursed based on the beneficiary's production of vouchers and records for completed works.

In 2021-22, number of beneficiaries and financial assistance issued across the state were 83 and 20.68 lakh respectively.

7.6. Vanamithra Award

The Vanamitra Award, included under the Biodiversity Conservation Programme, has been in vogue since 2010-11. Activities that contribute to the conservation of biodiversity values in the locality, such as the conservation of sacred groves, mangroves, medicinal plants, and agro-biodiversity, are considered for this award. Only one award is provided per district, including an incentive of Rs. 25,000/- and a certificate. Applications are invited by the concerned Assistant Conservators of Forests from individuals, educational institutions, NGOs, farmers, etc. 14 persons received Vanamitra Awards during 2021-22.

Chapter – VIII

BUDGET OUTLAY AND REVENUE

8.1. Budget Outlay

The year 2021-22 was the fifth year of the 13th Five Year Plan. Plan outlay for the current year is Rs.252.22 crore and expenditure incurred is Rs.204.31 crore, which is 81% of the outlay and 99.37% of the released amount.

The allocation and financial achievement under 13th Five Year Plan is given below.

Table-8.1

Allocation and financial achievements during the XIIIth Five Year Plan (in crores)

Year	Allocation	Release	Financial Achievement	Percentage against allocation	Percentage against Release
2017-18	307.70	237.89	188.03	61.11	79.05
2018-19	305.94	252.91	171.69	56.12	67.89
2019-20	256.01	216.17	160.27	62.6	74.14
2020-21	269.46	249.47	247.61	91.89	99.25
2021-22	252.22	205.61	204.31	81	99.37

The plan expenditure under the forestry sector during 2021-22 was Rs.204.31 crores, which is 81% of the total plan outlay. Out of this state sector accounted an expenditure of Rs.185.52 crores and central sector accounted an expenditure of Rs.18.79 crores.

Table-8.2

Sector-wise outlay and expenditure (in crores) during 2020-21 and 2021-22

Schemes	2020- 21		2021-22	
	Outlay	Expenditure	Outlay	Expenditure

8.3. Revenue

The Forest Department significantly contributes to the non-tax revenue of the State, primarily through the sale of timber and other forest produce. In 2021-22, the revenue from the forestry sector amounted to ₹200.56 crore, with a major portion coming from timber sales. Specifically, revenue from timber sales alone totaled ₹179.32 crore, accounting for 89.41% of the total forest revenue.

Table-8.6

	Net Revenue	**25584.47**	**23660.60**	**20055.84**

Note: The expected revenue could not be achieved due to natural calamities in the state and covid-19 pandemic.

Chapter - IX

SPECIAL SCHEMES

9.1 Navakiranam-Voluntary relocation programme of the state government

The Kerala Forest Department's Navakiranam project is one of the prime projects of the state governments under the Rebuild kerala initiative and KIIFB. Launched on November 14, 2019, Navakiranam empowers voluntary relocation of non-tribal families residing within forests. The project addresses key challenges such as human-wildlife conflict, natural disasters, and limited access to amenities.

Name of Scheme	Amount (Rs. In Crore)	Family units (Nos)	Area purchased (Ha)
RKDP	9.15	74	5.315
KIIFB	2.18	29	1.309

Regarding the relocation of private settlements, 10 families from the Channamala Settlement in the Thiruvananthapuram Forest Division have been successfully relocated. Furthermore, the first installment of Rs. 142.00 lakh (Rs. 7.50 lakh per family) has been disbursed to 19 eligible families in the Vattakarikkam Settlement of the Thiruvananthapuram forest division.

Similar efforts were started in the RKDP programme during 2021-22.

9.2. Voluntary relocation programme of Government of India

The voluntary relocation process in Wayanad Wildlife Sanctuary began in 2012, with approval from the MoEF & CC for a project worth ₹80 crore to relocate 800 eligible families from 14 settlements within the sanctuary. The Government of India initiated funding for the project in 2011-12, providing ₹10 lakh as compensation for each eligible family. So far, 382 eligible families from 9 settlements have been relocated, receiving ₹10 lakh each (376 families) and ₹6 lakh each (6 families), utilizing a total of ₹37.96 crore. The relocation process is currently ongoing in one settlement.

9.3. Vriksha Samridhi Scheme

The Vriksha Samridhi scheme, jointly implemented by the Kerala Forest Department and the Local Self Government Department, is taking a collaborative approach this year by working in conjunction with MGNREGS to raise seedlings. The maintenance of these planted seedlings will adhere to MGNREGS guidelines for 3-5 years, depending on the species. The Local Self Government Department will be responsible for raising, planting, and maintaining the seedlings for 5 years. This year, the goal is to raise 47 lakh seedlings, generating 75 lakh mandays of work. A total of 838 nurseries have been established throughout the state to implement this scheme.

As many as 35.93 lakhs seedlings were raised through Vriksha Samridhi scheme during 2021-22.

9.4. Prime Minister's 'Van Dhan Yojana'

The Van Dhan Vikas Kendras (VDVKs) under the Van Dhan Vikas Yojana, initiated by the Ministry of Tribal Affairs, support the retail marketing and value addition of Minor Forest Produce (MFPs). In Wayanad District, 13 VDVKs have been established under the leadership of the District Collector,

at a cost of Rs. 195.00 lakh. Additionally, the State Forest Development Agency (SFDA) has initiated activities for establishing 31 VDVKs under 18 Forest Development Agencies in the State, for which TRIFED has released ₹2.12 Crore. These VDVKs aim to empower forest-dependent communities through the value addition and marketing of MFPs. Thus far, ₹12.224 lakh has been utilized towards establishing various VDVKs.

9.5. Nagaravanam

The concentration of population in Kerala's urban and rural areas has led to a significant decrease in public green spaces, highlighting the urgent need for creating such spaces in urban and semi-urban landscapes. It is crucial to integrate green spaces into developmental planning and urban projects. Establishing demonstrative green patches in urban and semi-urban areas can serve as models for replication by Local Self-Government Institutions (LSGIs) and other agencies. With this objective, the Kerala Forest Department aims to initiate the Nagaravanam (Urban Forests) project to pilot a few such forest patches in urban and semi-urban landscapes.

In 2021-22, a total of 11 Nagaravanams were established as part of this initiative.

9.6. Vidyavanam

The Kerala Forest Department introduced 'Forestry Clubs' in schools in the early 1980s, and recently launched the "Mission Forestry Clubs" to revive and expand their activities. One of the proposed activities for these clubs is the establishment of miniature forests within school and college premises, known as Vidhyavanam (educational forests). These forests are designed as multi-canopy forests with indigenous species, utilizing high-density planting techniques to create dense forests quickly. They serve as a platform for educating and sensitizing students about the ecological, biological, and recreational values of forests, fostering a conservationist mindset.

The Social Forestry wing established 26 Vidhayavanams during the 2021-22 period.

Chapter – X

OTHER MAJOR EVENTS AND ACHIEVEMENTS

10.1. State Forest Sports Meet

The 27th State Forest Sports Meet, held from January 10 to January 12, 2022, at the University Stadium in Thiruvananthapuram, was inaugurated by the Minister of Forests and Wildlife. The Eastern Circle emerged victorious, retaining the crown with an impressive medal tally of 164, including 59 gold, 57 silver, and 48 bronze medals. The Northern Circle secured the first runner-up position with 135 medals, comprising 51 gold, 51 silver, and 33 bronze. The Central Circle secured the second runner-up position with 461 points, while the hosts, the Southern Circle, finished fourth with 415 points.

10.2. Awards for Meritorious Service

In 2021-22, 20 officers from various cadres within the department were honored with the Chief Minister's Forest Medal for their outstanding service..

Sl No	Name	Designation
1	Sri. Ajaya ghosh N.K	Range Forest Officer
2	Sri. Nissam A	Deputy Range Forest Officer
3	Sri. B Biju kumar	Section Forest Officer
4	Sri. V.C.Sebastein	Section Forest Officer
5	Sri.Maniyan P.S	Section Forest Officer
6	Sri. M.Nizar	Section Forest Officer

Sl No	Name	Designation
7	Sri. Akhil dev S.	Beat Forest Officer
8	Sri. Akhil S.	Beat Forest Officer
9	Sri. Pramod R.	Beat Forest Officer
10	Sri. Rajesh Kuriakose	Beat Forest Officer
11	Sri. Anwar O.M	Beat Forest Officer
12	Sri. Dineshan R	Beat Forest Officer
13	Sri. Shanavas V.M	Beat Forest Officer
14	Sri. Gireesh K	Beat Forest Officer
15	Smt. Reshmi K.	Beat Forest Officer
16	Sri. Tharanath K.K	Beat Forest Officer
17	Sri. Vipin Das Kochikaran K.C	Beat Forest Officer
18	Sri. V. Chandran	Forest Watcher (SR)
19	Smt. Mani Krishnankutty	Forest Watcher
20	Sri. V. Moorthy	Forest Watcher (SR)

10.3. Forest Martyrs' Day

Forest Martyrs' Day was commemorated on September 11th at the department's headquarters and other offices to honor the service and sacrifice of the personnel who lost their lives while protecting natural resources.

10.4. Major Achievements during 2021-22

1. The first animal Hospice Center in the State has commenced operations in Wayanad, aiming to treat and protect injured and diseased wild animals
2. Approximately 100,000 saplings were planted near 465 tribal colonies in the state, with active participation from the forest community as part of Van Mahotsav

3. Fire management plans have been prepared in all circles to prevent wildfires in forests. A 24-hour fire control room has been established, and forest control operations have been enhanced by pre-deploying defense teams, including EDC/ VSS members, in forest-prone areas.

4. Several social forestry projects, such as urban forests and coastal forests, have been implemented to increase tree cover outside the forests.
5. Survival of aquatic species is in danger due to pollution and habitat destruction. 13000 saplings of selected species have been planted on riverbanks for the protection of aquatic life and to ensure food availability.

6. Twelve thousand Kurinji saplings were planted in the Kurinjimala Sanctuary.
7. Forests and trees can protect humans from natural disasters. Approximately 30000 saplings have been planted at disaster prone areas in the State as part of disaster prevention and relief programme.

8. Fourteen integrated Forest Check Post Complexes and 15 forest stations have been constructed and inaugurated.
9. Five hundred posts of Beat Forest Officers have been created for Special Recruitment to integrate tribals into the mainstream.
